

When listening to K-Love, I never have to worry about the derogatory words being said in front of my family, and the music and DJ's are always uplifting. Because K-Love is funded by listeners, it is obvious that the station is important to the people in our community and around the US. It would be very misfortunate if this station were to be replaced by an LPFM broadcaster providing other programming. Please consider this request, to allow K-Love radio to continue operating in my area. Thank you for your time.
